

Material flow monitoring of cement

Client:

Cement plant (Germany)

Product:

Cement

Conveyed volumes:

30...40 t/h in an air conveyor

Installation location:

in air conveyor

What measuring process was used previously:

none

According to the client, the FlowJam-system offers the following advantages:

- Continuous material flow monitoring
- Cost-effective measuring procedure

Client benefits:

- Faulty mixtures can be avoided
- Guarantees material flow
