

# Flow metering of potato starch

## Client:

Food producer (Germany)

## Product:

potato starch

## Conveyed volumes:

60...80 t/h

## Conveying:

Chain conveyors

## Installation location:

Free fall after chain conveyors

## According to the client, the MaxxFlow system offers the following advantages:

- Simple retrofitting / assembly
- Low installation height in comparison to the impact plate scale
- Wear-free, since there are no mechanical parts (contactless)

## Client benefits:

- Continuous material flow metering
- Quality control in the manufacturing process
